

# MARINE RECREATIONAL INFORMATION PROGRAM

## PROJECT PLAN Appendix

Identify and consolidate information on existing recreational datasets

Project leader: Vivian Matter

Data Management and Standards workgroup

November 26, 2007

## Appendix

### Explanation of cost estimates

<b>Contract support</b>	2 people		2-3 months	\$30,000.00
<b>Travel</b>				\$13,000.00

Most of the data collection programs in the Pacific Islands regions are conducted and maintained by local agencies. A lot of the programs lack current documentation. Additional funding is requested both in the form of contractor support and travel to assist the Pacific Islands regional coordinator in gathering the required information for the project 1 template. In addition, contractor support is requested to assist the Gulf region coordinator if needed.
